Wedding rings (SOP) The wedding ring is a token of a lifelong commitment between the bridegroom and the bride.
The moment it is placed on the bride's finger is often the most significant part of the ceremony.
The wedding ring is a plain or occasionally engraved band in white or yellow gold or platinum.
This is the groom's gift to the bride, though today many couples like the idea of exchanging matching rings in the ceremony.
It is placed on the third finger of the bride's left hand because it was once believed that this finger was connected directly to the heart by a vein.
