History of Thief River Falls

Thief River Falls is a name which bears significance as well as mystery. The first white men who set foot in this region found the lake (Thief Lake) and the river (Thief River) so called and learned the Indian tradition of the origin of its name. It seems a lone Sioux murderer concealed himself in the vicin-

ity of the river, and lived a life of robbery and pillage before his tribe was driven out of Northern Minnesota by the Chippewa or Ojibway Indians in 1750. The Chippewas translated the names into their own language but retained the meaning.

In about 1800, agents of the Hudson's Bay Company penetrated into the region. One of them, Alexander Henry, a fur trader, wrote of the "Lac aux Voleurs" and "River aux Voleurs," that is, in French "Lake and River of Thieves."

The city now has a population of approximately 7,500 and serves a trade area of around 55,000 people. Thief River Falls is located at the junction of the Thief and Red Lake Rivers in Central Pennington County. It is vitally located as a trading centre, with no other cities of comparable size for a distance of 50 miles.

Facts About Recreation
Thief River Falls is very proud of its beautiful new high school gymnasium which provides some of the finest facilities for basketball and other indoor sports in the North west. The city also has an excellent football field, and enclosed rink for hockey and skating (ice and roller), a sporty nine-hole golf course, a good airport, a fine bathing beach, and several parks and playgrounds. The surrounding territory is a hunter's paradise for it abounds in deer, upland birds, and waterfowl.

Tel Aviv (JTA) — Commercial broadcasting came to Israel last week, via Kol Israel, the State Broadcasting Service, at \$27.50 for a maximum five-minute plug.

British Socialists Stand Chided

LONDON (JTA) — A veteran Socialist leader and former secretary of the Socialist International, Dr. J. Braunthal, this week chided Socialists for standing on the sidelines during the Israel-Arab struggle and for criticizing Israel's role in the Sinai campaign.

In a speech to representatives of the British Labor Party and trade unionists, Dr. Braunthal pointed out that Israel was battling for its survival as a state, for the lives of hundreds of thousands of its citizens and for democracy. He asserted that many critics of Israel had lost sight of the Socialist principles involved in the struggle and the fact that Israel struck first to defeat a carefully prepared assault by vastly superior forces.

Thief River Falls Shopping

The conflict between Israel and the Arab states, Dr. Braunthal insisted, was "between reactionary feudal and semi-fascist autocracies on one side and a free democracy with unique Socialist achievements on the other."

Hamburg (JTA) — Another passenger vessel built for the Israel merchant marine under the Bonn reparations pact, the new 10,000-ton "Jerusalem," was launched here last week-end.
