Jewish Unit In African Offensive Wins Praise Laugh This One Off Nazis Blame Jews For Yank Invasion Of French Africa

Cairo (WNS)—High British military authorities this week praised the part played by a Palestine Jewish communications unit in the British Eighth Army's smashing defeat of Nazi Field Marshal Rommel's Afrika Korps in the Egyptian desert. Despite heavy enemy fire at the outset of the great battle, the Jewish unit maintained constant communication between the advancing British troops and the High Command.

Disclosing the achievements of the Jewish unit, British military leaders said that "the Jewish officers and men have carried out exemplarily a most difficult task." Meanwhile, while Allied forces plunged across the Egyptian desert in pursuit of General Rommel's beaten troops, the Rome Radio announced that all Jewish men of military age in Tripoli had been arrested and had been

moved from the city to a concentration camp somewhere in the desert. The Rome Radio said that this action was taken "as a matter of precaution" and charged that the 15,000 Jews in Tripoli, a potential jumping off place for an invasion of Italy, were pro-British. Jewish women and children in the city were forbidden to leave their homes between six o'clock in the evening and dawn.

The rout of Rommel's armies signalled a new Axis campaign among the Arabs urging them to revolt against their "British-Jewish masters." The notoriously anti-Semitic and pro-Nazi ex-Mufti of Jerusalem broadcast an appeal for Arab aid to the Axis, stating that there is a "Jewish danger for Arab countries and for the holy places of Islam."

London (WNS)—Nazi radio stations in Germany and all Axis-occupied countries joined this week in blaming "international Jewry" for the highly-successful American invasion of French North Africa. Nazi broadcasters accused the Jews of paving the way for the landing of American troops by bribing French colonial leaders.

The Nazi radio in Stuttgart stated that Jews in Algeria, Morocco and Tunisia had been secretly conducting anti-Vichy activities in these French colonies and had undermined their resistance to the American invaders. The Nazi announcer said that the Jews had plotted to "betray" the French colonies in revenge for the anti-Jewish policies of the Vichy government.

The Nazi controlled radio in Tunis reported that General Auguste Nogues, pro-Nazi Pierre Laval's resident-general in Morocco, had ordered the arrest of hundreds of Jews in Morocco when informed of the landing of American forces. The Jews were arrested because of their "intense pro-United Nations' feelings."

United Nations Will Create World Where Jews Free To Live, Hurl

Washington (WNS)—The United Nations, under the terms of the Atlantic Charter, will create a world "in which Jews, like every other race, are free to abide in peace and in honor." Secretary of State Cordell Hull this week told a delegation of leading American rabbis which submitted a memorandum to the State Department urging the American government to continue its support of the Balfour Declaration.

Denouncing the Nazi persecution of Jews as "the most debased" of all "the inhuman and tyrannical acts of Hitler and his Nazi henchmen," Mr. Hull declared that, following a United Nations' victory, the Allied Nations would be prepared not only to redress the Jewish hopes of a future world based upon freedom, equality and justice, "but to create a world in which such a tragedy will not again occur."

Noting that Nov. 2 marked the 25th anniversary of the issuance of the Balfour Declaration, Mr. Hull stated that since the United States and that this country had followed with interest and sympathy the work which had been done under it, in which American citizens have played a useful part.

Psychology Professor Describes "Jewish Traits" As "Bunk"

Washington (WNS)—"It's all bunk—plain and unadulterated."

That was the answer given by Dr. Rudolph Piltner, non-Jewish professor of psychology at Columbia university, when asked whether there was any scientific basis for the anti-Semitic charge that loudness, vulgarity, money-mindedness, etc. are "Jewish traits."

He was interviewed by Dr. Joseph Tenenbaum, an assistant professor of psychology, for the November issue of The National Jewish Monthly, published by B'nai B'rith. According to Dr. Piltner, this type of traits is a matter of environment, is not peculiar to Jews or any other group, and is to be found in

all individuals who experience similar childhood conditions. "Place a Chinese child in a Chinese home and he will grow up eating with chop sticks and talking Chinese. Place a Chinese child in an English home, and he will develop Anglo-Saxon habits in food and dress and deportment. Take the child from the jungle and raise him in an American home and he will grow up liking ice cream, movies and baseball."

"But all this has nothing to do with racial characteristics. It has only to do with environmental mores. As for Jewish traits—in the sense of their being inherent and inborn—psychology has not discovered any such thing."

King Pins Medal On Montreal Jewish Soldier, Hero At Dieppe

Montreal—His Majesty the King pinned the Military Medal on the breast of Sgt. David Lloyd Hart, of Montreal, Jewish hero of Dieppe, while his two brothers on active service with the Canadian army in Britain, Captain Paul Hart, of a Quebec Regiment, and Sgt. Edward Hart, of the Royal Canadian Corps of Signals, watched the Buckingham Palace ceremony proudly. A cable to their father, H. S. Hart, of 4849 Hutchison street, here, gave all these thrilling details as well as the citation: "In recognition of his coolness under fire and devotion to duty."

Sgt. Hart had been reported wounded and missing in the first despatches from the Dieppe raid in mid-August, but he was later found to be safe and he wrote his father that he heard that he was to be given the Military Medal with surprise.

Sgt. Hart was in charge of the wireless of the headquarters of a Canadian infantry brigade on a landing craft. In spite of the heavy shelling concentrated on the vessel and many casualties on it, he kept in touch with the force headquarters throughout the operation and made a substantial contribution to the success of the raid. The citation said of him: "His coolness under fire in the continuous performance of his duties made him a conspicuous example to his men."
