

Canadians Flock Across U.S. Border for Holiday Week End

The Victoria Day Weekend is to Winnipeggers what the summer solstice is to the hibernating bear and her cubs . . . we both crawl out of this arctic den of wintry blasts, month-long blizzards, and

bracing below zero winters . . . and make for the spot of sunshine beckoning so alluringly over the border.

With all the vibrant patriotism at our command, Canadians and parti-

cularly Winnipeggers equate spring, and particularly the Victoria Day week-end with a family jaunt to the 'States.' The family oxcart is taken in for its annual spring tune-up; fishing tackle is untangled, organized, and packed for the expedition; and the tensions, tiredness, and cooped-up feeling that is the heritage of every winterized Winnipegger, relaxes and thaws at the mere prospect of a jaunt across the border.

The meccas of shopping and entertainment, and the lures of advanced recreational facilities are what attract Canadians to the cities and resorts that dot the North Dakota, Minnesota, and Wisconsin countryside. The accelerated tempo of U.S. living, the variety and novelty of new menus, new apparel, new entertainment, new and advanced hotel and motel accommodation . . . are all a tonic to the Canadian. More than treaties, pacts, and international high-level parleys, the warm and friendly ties between Canada and her big sister across the border are grounded in the individual friendships made and good fellowship shared on these holiday excursions.

In many instances, the Victoria Day week-end offers the opportu-

ity desired to scout out likely resorts where a more extended summer vacation may be spent later in the year.

The eye feasts as you travel along on the scenic beauty of rolling countryside, lakes, wooded areas, progressive towns and cities, and superb highways that take all the strain out of driving and leave

only the pleasure.

On these pages will be found your guide to better enjoyment of your American holidays. Here are listed those American stores, hotels, restaurants, motels, bars, and services that make a special effort to cater to Canadian visitors. A warm and friendly welcome awaits you all. Happy motoring ahead!

Crookston Shopping, Parks Attracts Canadians

Its friendliness, its outstanding hospitality and its pleasing climate together with its many facilities and amenities for relaxation, recreation or shopping pleasure have combined to make Crookston, Minn., a favorite stopover centre.

Crookston always was a favorite spot on Canadian tourist lists of places to visit for entertainment, shopping and leisure. This is evident during vacation time and on long holiday weekends when scores of Canadian automobiles may be seen on the streets of this ideal tourist centre.

Situated only 175 miles south of Winnipeg, and served by Highway No. 2 out of East Grand Forks, and

No. 75 directly from the border, Crookston's easy availability makes

it an ideal place to spend a week-end, or longer if time permits.

The up-to-date, bright, ultra-modern Crookston stores are a feature attraction for everyone. Here the ladies find distinctive apparel in styles and fashions that are up-to-the-minute. And the men, too, can pick up the latest in American clothing and accessories that will make them well-dressed in trend-setting styles.

The hotels, restaurants, dance pavilions and other entertainment outlets, make this city a favorite with tourists. Its beautiful residential districts, landscaped with native

trees, a profusion of shrubs and overhanging vines, are a stimulating sight to behold.

In the major parks and the numerous smaller ones there are swimming and wading pools, tennis courts, spacious lawns, children's playgrounds and a nine-hole golf course.

Lovers of game and fish are able to see CROOKSTON, Page XIV
